

## **Bike Protector Warranty**

**Your bike protector is warranted for 90 days after original purchase. The warranty covers defects in materials and workmanship. Warranty does not cover wear and tear, cuts, excessive wear due to sharp objects or frayed cables, punctures, or impacts with objects.**

**Skinz Protective Gear is not responsible for damage to your vehicle, bike, or car rack. It is your responsibility to monitor your bike rack & bike protector during use and make sure proper fit is maintained and all straps are tight and properly secured. Check your rack before using bike protector. Be sure rack is secure before and during each use. Be sure you have the correct bike protector for your type of Bike. ( A road style bike protector Cannot be used on a mountain bike, etc.)**

**Please fill out warranty card and return at the time of purchase.**

# **SKINZ PROTECTIVE GEAR**

Congratulations on your new bike protector. Please read and carefully follow all the instructions on both sides of this sheet. If you have any questions or need technical information, please contact us at:

Info@SkinzProtectiveGear.com or call 320-243-8771.

### Care & Maintenance:

Wash in cold water on gentle cycle. Make sure all velcro is put together. Line dry or dry on low heat.

### Installation Tips:

Check the fit of your bike protector and make sure it is evenly stretched over the bike. Be careful of sharp objects such as frayed cables, burrs due to crashes, etc.. **Note: H2O Water Proof bike protectors fit tighter than the standard bike protector. Take time to properly stretch water proof bike protectors over bike.** Check bike protector often and tighten straps as needed during your trip. If holes do develop around sharp objects, our patch kit can reinforce those areas on your bike or reinforce an area which you may think could be a problem. Holes can also be caused by rocks, birds, hail, debris, etc. (Our patch kit part # is BPP100 - \$14.95 ea)

### Warranty Returns:

Please wash your bike protector before returning or a \$5.00 cleaning charge may be incurred.

If deemed defective, Skinz Protective Gear will repair or replace at no charge. Non warranty repairs can be made for \$18.95(including shipping & handling).

# Bike Protector Installation Instructions

***Make sure your bike protector fits firmly over the entire bike and all straps are secure. The bike protector should fit snugly. Check bike protector regularly and tighten if needed.***

Note: H2O Water Proof bike protectors fit tighter than the standard bike protector. Take time to properly work bike protector over bike.

## Top Tube Strap

Secure tightly around top tube. Pay attention to cables and route straps accordingly. On small bikes the strap can be routed around down tube.

## Seat Strap

The seat strap wraps around the front of the seat post and secures to velcro in the back.

## Fork Mount Straps

The fork mount straps can be secured tightly around the skewer mount on the car rack or the cross bar on the car rack.

These can be used to adjust the tightness of the overall bike protector.

On small bikes, the two fork mount straps can be wrapped twice around the cross bar or fork mount to take up excess slack if needed.

## Front Fork Strap

This strap is used on mountain bikes only. This strap goes around forks to secure the front panel.

## For Bikes w/Wheel

The tire stays on and the straps connect thru the front tire as shown.
